LURLINE ARRIVES IN LATE

Governor Chamberlain, T. Richardson of Portland Commercial Club, and J. B. Warren of "Everybody's," Form Congenial Party on Board Alliance

The ship Emily Reed which was reported as on Desdemona Sands on Tuesday, got off yesterday without assistance. A tackle was rigged aloft and the ship laid over when she slipped sideways into deep water without damage to herself. She was at anchor in the stream up till last night waiting her turn to proceed up the river to Portland.

The tug Harvest Queen towed three vessels up the river yesterday. It is an unusual event for one tug to take three vessels in tow, although one has been known to take four. The vessels in question were the barkentine John Smith for Westport; the schooner Muriel for Estella, and the schooner Letitia for Rainier, all to load lumber.

The O. R. & N. Company have been so crowded with freight that they were forced to put on an extra boat Tuesday in order to help out the Hassalo. The latter boat made a quick run of 200 miles in 19 hours between 1 p. m. Tuesday and 7 a. m. yesterday morning when she completed her round trip.

The steamer Lurline arrived at her dock at 10 o'clock last night. The congestion of freight up the river and at way ports is responsible for this over-running of the schedule. She had a carload of feed to take on at this port and besides other freight so that she did not get away until very late.

The German bark Tellus, which has been discharging cargo at Portland, is expected down at any time at Knappton to load lumber at the Columbia Mills. She is chartered for Sidney, Australia.

The steam schooner Nome City came up the river yesterday morning. She carries about 900,000 feet of lumber and has proceeded up to Estella for her cargo.

The steamship Columbia from Port-

land is due at 3 p. m. today and will proceed on her voyage to Frisco as soon as she can be gotten away.

The four-masted schooner Melrose cleared for San Pedro yesterday lumber laden. She carried 735,000 feet and was loaded at Kalama.

The steam dredge W. S. Ladd came down the river last evening and tied up at the foot of Ninth street.

The oil tank steamship Arygle came down from Portland to the Union Oil Company's wharf yesterday.

The oil tank steamer W. S. Porter cleared the river for San Francisco yesterday morning.

The barkentine John Smith from Frisco for Estella came in over the bar yesterday.

The Pacific Coast Navigation Company's steamer Elmore is due here today.

The schooner Muriel is in from Frisco and is loading lumber at Westport.

The German steamship Eva from Portland cleared the river yesterday.

The steamship Elder sails May 17 at 6 a. m.

TO DAM THE NASEL.

Weyerhaeuser Lumber Co. Contemplate Work on River by Means of Which to Form Log Pond.

Gelo F. Parker, the surveyor, returned to town yesterday after a trip to the Nasel River in the interests of the Weyerhaeuser Lumber Company. Mr. Parker has been surveying the land in the vicinity of Alder Creek which is the middle fork of the Nasel. The latter has three forks known respectively as the North Fork, the East Fork, and Alder Creek. The East Fork is already dammed and after the work in contemplation on Alder Creek is completed, work will in all probability be commenced on the North Fork. When the dam is finished the river will be raised at least 35 feet, and the whole of this bottom will have to be slashed and cleaned of standing timber in order that there may be no obstruction to the logs in the pond so made. The bed of the creek is at present too rocky for logging purposes, but when all three dams are in it will be possible to drive the logs right through to tide water. Under existing conditions the logs all jam a short way down the river. The dams will be built of stout timber and will be in the form of crib work. There will be openings in each of about 20 feet in width. The actual area of land so submerged will be in the neighborhood of 80 acres, and it was for the purpose of surveying this and ascertaining the owners of the property effected that Mr. Parker's trip was taken. The land lies in township 11 north, 8 west. The Armstrong-Leonard Logging Company are also interested in this matter on which a very large sum of money will be spent.

BARN COLLAPSES

With Great Noise of Crashing Timbers

A large barn on the west side of Tenth street, between Duane and Exchange, collapsed at noon today. The barn was occupied by the No. 1 Milk Depot as a stable for their horses and wagons. At the time of the collapse there were five horses in the barn and by great good fortune none of them were injured. Apart from the damage done to the barn itself a large upper porch was torn off the back of the adjoining premises on the north side and had anyone been standing there at the time he could scarcely have escaped serious injury. The barn itself has been rendered practically useless by the collapse and it is not the intention of the owners to spend any money on raising it. The property belongs to the Rogers estate. Neighbors aver that the noise of the falling timbers was tremendous and rushed from their homes expecting an earthquake.

Just Received

The secret of making good pictures is in having the best materials to work with. Hart's drug store have just received a fresh supply of films and film-packs, so get in the game and do it right.

IT MAKES A DIFFERENCE.

It makes all the difference in the world to the convivial man where, and what, he drinks. Most men desire beauty and cleanliness, and handsome appointments in the saloon they patronize regularly, as well as the essential pre-requisite of genuine wines and liquors that are served to them. And these things are so particularly and properly conspicuous at Otto Sund's elegant resort, the Commercial, at No. 509 on the street of that name that they account thoroughly for the fixed and splendid custom he enjoys. There is nothing allowed to pass his counter but the best and choicest in every department of indulgence, and the service behind it all, is the most pleasing and satisfying in the city.

Billiard Fever

The motion pictures at the Waldorf this week depict the antics of a man possessed of "Billiard Fever" and are presented under that heading. This series is quite interesting but not so good as the ones presented last week or those which are scheduled for next week.

FOR SERVICE AND CONVENIENCE

The prime essential of a business establishment is to have it open for the purposes of business when it is needed; not closed by custom nor any rule of hours. This essential attaches to the drug store of Dr. C. E. Linton at 155 Eleventh street, which is open every one of the 24 hours in the day; and with a stock that meets every requirement likely to arise in that time. It is one of the exceptions and is thoroughly endorsed.

The Liberty Bell Social Club will give another one of their dances Saturday evening, May 18th, at Logan's hall. Everybody is cordially invited. 5-15-4t.

For The Little People.

Every parent in this city should investigate, at once, the new and appreciable shoe for the youngsters, at Charles V. Brown's Commercial street house. They are called the "E. C. Scuffer" and are the very epitome of good wear and real comfort. They

are going like wild-fire and the kids themselves are after them because they look so "comfy."

If a man knows anything of his own anatomy he must be aware that his stomach is a magnificent organ and entitled to the utmost consideration; knowing that he will eat at the Palace when he can conserve its safety and comfort, by eating only the best cooked, best served and most compensating meal in the city of Astoria. day, or night, it is always the same, and the Palace habit is one that pays to acquire. Arthur Smith is a master of the art of preparation and service, of all things edible.
